studied English for almost two decade with a BNEPT score of 573

🎓 Education

Bina Nusantara University
Bachlore's degree - Computer Science
Sep 2019 - Nov 2023
Multimedia study track

Budi Mulia Mangga Besar Senior High
Mathematics & Natural Science
Jul 2016 - Jun 2019 | Jakarta, Indonesia

👤 Profile

a recent graduate of Bina Nusantara University with a profound passion for programming, I perceive the current technological advancements as an optimal occasion to delve into the boundless opportunities that technology presents.

📁 Projects

URL shortener 🔗

Feb 2024 - Feb 2024

A Python script designed to leverage the TinyURL API for the purpose of shortening URLs.

QuakeWatch 🔗

Jan 2023 - Sep 2023

An application that can visualize earthquakes and alert the user when an earthquake is happening

I have experience in working on and developing the back-end algorithm of the application using the DBSCAN method.

📁 Professional Experience

PT. Quantum Tera Network

Internship

Mar 2022 - Mar 2023

Served as a web programmer, contributing to the development of the database-driven website.

Pekan Raya Jakarta (PRJ)

Ticketing

Jun 2019 - Jul 2019

Served as a ticket seller, facilitating the sale of tickets to approximately one thousand customers on a daily basis.

🏠 Organizations

Binus Game Development Club

Member

Sep 2019 - Nov 2023

I became a 2D artist and programmer who specialized in pixel art and Unity development.
